

Hurricane Fiona – September 19 2022

After days of torrential rain and gusts of wind, the school center was closed for a week, from September 19 to 23, until the land was partially restored. Building 1 had some damage. We are waiting for the funds in order to be able to repair it, but remain in activity.

The good mood of the students and the help of some mothers has made it possible land repair

Dagmara, The Director also participated to this big work.

The two mothers at work. They are both teachers at the school.

**Yessica on the left,
French teacher**

**Berkis on the right,
Primary teacher**

The mens' team

The beautiful team after the effort with our director Dagmara (top right)
